RULING ON ENTITLEMENT¹

On December 11, 2020, Mohammed Omar filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that he suffered a shoulder injury related to vaccine administration (“SIRVA”) as a result of a hepatitis B vaccine administered on January 21, 2020. Petition at 1. Petitioner further alleges the vaccine was administered within the United States, that he has not received any compensation in the form of an award for his injury, and that he has suffered from the effects of his injury for more than six months. Amended Petition at 12-13. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On September 8, 2023, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent has concluded that Petitioner's injury is consistent with a SIRVA as defined by the Vaccine Injury Table. *Id.* at 3. Respondent further agrees that Petitioner has satisfied all legal prerequisites for compensation under the Vaccine Act. *Id.* at 4.

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
